NAUTIZ X1
BUILT TO SURVIVE

The Nautiz X1® is an ultra-rugged handheld that breaks through barriers of size, toughness and reliability. With its slim size and light weight it’s our most compact data collector — but still boasts impressive ruggedness.

The Nautiz X1 is IP67-rated and meets stringent MIL-STD-810G military standards for withstanding humidity, drops and extreme temperatures. It is fully dust-tight and waterproof. The 4-inch capacitive touchscreen is sunlight-readable and scratch-resistant. This rugged handheld provides u-blox® GPS, connects to 802.11 b/g/n WLAN networks and is available in Windows or Android versions.

NAUTIZ X2
RUGGED MOBILITY OPTIMIZED

The Nautiz X2® is a true all-in-one: a computer, a scanner, a camera and a phone. You can easily accomplish all your daily tasks on the go with the power of an advanced quad-core processor and the easy-to-use Android OS. Then add a high-quality, high-speed 1D/2D scanner and integrated camera with autofocus and flash. And, to top it off, the Nautiz X2 has the kind of phone capabilities and voice quality you would expect from a consumer smartphone.

Google GMS sets the Nautiz X2 apart from other enterprise handhelds allowing you to download apps from the Play Store and use Google Maps.

NAUTIZ X4
WORK-READY, FIELD-TOUGH

Merging ultimate mobility with true field functionality, the Nautiz X4® rugged handheld was designed with fieldwork in mind — it’s packed with features, it’s compact and truly portable, and it offers a reliable computing solution for challenging worksite environments. The feature-rich Nautiz X4 runs either Windows or Android for ultimate versatility.

A valuable tool for warehousing, logistics, field service, public safety and similar sectors, the Nautiz X4 rugged handheld has connectivity options such as 3G and WLAN to keep you connected, everywhere and always.

NAUTIZ X8
LEADING THE WAY

The Nautiz X8® ultra-rugged handheld features a high-speed dual-core processor and a battery that lasts up to 12 hours on a single charge. A choice of operating systems — Windows or Android allows you to choose the most suitable platform.

Each detail of the Nautiz X8 is meticulously designed for field use. You can operate the capacitive touchscreen using multi-finger gestures — the same way you use your personal smart devices.

NAUTIZ X9
THE ULTIMATE OUTDOOR PDA

The Nautiz X9® is a feature-full rugged handheld with plenty of computing power, a scanner, camera, 4G/LTE phone and NFC, plus all the capabilities that come with the Google GMS license, such as access to Play Store and Google Maps.

This data collector is powered by a quad-core processor and runs Android 7.0 (Nougat). It has plenty of RAM and storage and it features a sunlight-readable 5-inch capacitive display with multi-touch sensitivity and specially hardened glass.

NAUTIZ eTicket Pro II
MOBILE TICKETING MADE EASY

A smart choice for electronic fare collection and ticket validation, the Nautiz eTicket Pro II® merges ultimate mobility with true field functionality. This rugged handheld is reliable and efficient for transactions and validations, designed specifically for transit workers. It is packed with features and it is compact and truly portable.

The built-in Arcontia smart card reader makes the Nautiz eTicket Pro II an extremely fast and accurate tool for contactless payment data collection.
ALGIZ RT7 eTicket
BEST-IN-CLASS MOBILE TICKETING

Perfectly ergonomic, seriously rugged, and ready for your mobile transit tasks, the 7-inch Algiz RT7 eTicket® offers unmatched mobile ticketing performance at an excellent value.

The premier choice for electronic mobile fare collection and ticket validation, the Algiz RT7 eTicket is a dependable and efficient tool designed specifically for transit workers — it’s reliable, packed with features, lightweight and mobile.

The integrated Arcontia smart card reader makes the Algiz RT7 eTicket an extremely fast and dependable tool for contactless payment collection. The contactless electronic link between the card and the reader allows for the fast interface that is needed in security and payment systems.
ALGIZ 7
SUPER-RUGGED, ULTRA-MOBILE
The Algiz 7® is tough enough for the outdoors, but delivers office-computer versatility. It has a highly efficient and powerful processor and plenty of RAM, runs Windows 7 and has a clear 7-inch widescreen touch display with MaxView™ technology for spectacular brightness even in the sun.

The Algiz 7 features integrated GPS and built-in 3G modem – which means you’ll be able to work with cellular carriers around the world.

ALGIZ 8X
PORTABLE AND POWERFUL FIELD COMPUTING
The ultra-mobile Algiz 8X® rugged combines powerful computing with ultimate reliability in the toughest environments. This rugged 8” Windows tablet offers fast processing along with user-friendly features and design, maximizing your efficiency on long days in the field.

Along with sleek design, the Algiz 8X offers snappy performance and can withstand harsh handling and tough outdoor and industrial environments, from mining to maintenance. With a full range of features and built rugged from the inside out, the powerful, compact Algiz 8X offers an ideal compact tablet solution at an excellent value for today’s field professionals.

ALGIZ 10X
EXTREME FIELD PERFORMANCE
The Algiz 10X®, ultra-rugged tablet features a crisp and bright 10.1 inch full HD projected capacitive touchscreen. The display’s ambient light sensor adjusts backlighting automatically — so collecting data in bright sunlight is no problem.

This tablet has integrated LTE/3G modem, u-blox® GPS/GLONASS, and multiple connectivity options. It comes standard with Windows 10 Enterprise CBB (64-bit) and operates on a powerful quad-core processor, with a 128 GB SSD and 4 GB of RAM.

The Algiz 10X is slim and lightweight and built to withstand the harsh conditions that comes with fieldwork. It carries an IP65-rating and meets MIL-STD-810G military standards for withstanding dust, water, vibrations, drops, extreme temperatures.
